

SourceX India: Forging Excellence in Steel Solutions

At **SourceX India**, we go beyond meeting expectations—we anticipate them. As a trusted leader in the steel industry, we deliver world-class products and services that set new standards. With deep expertise in manufacturing and exports, we provide high-quality solutions across sectors, ensuring reliability and excellence at every step.

About Us :

SourceX India is a leading provider of innovative solutions for the steel and industrial sectors. Since our inception in 2014, we have been committed to combining cutting-edge technology with high-quality products to optimize our clients' operations and drive long-term value.

Founded by Anand Mishra, a seasoned Mechanical Engineer with over 17 years of global experience in the steel industry, SourceX India was born from the vision to provide industries with reliable, high-performance materials and solutions. Anand's extensive experience in leading steel plant greenfield projects worldwide has enabled us to build a strong reputation for technical expertise and a deep understanding of industry challenges.

Our Core Offerings

SourceX India offers a comprehensive range of solutions to meet the diverse needs of our clients:

- **Refractory Materials:** High-quality refractory materials, including fire clay and high alumina bricks, castable, ramming masses, gunning materials, and insulation bricks, designed to withstand extreme temperatures and harsh environments.
- **Mechanical Machinery, Spares, and Consumables:** A wide range of spare parts and consumables for rolling mills, re-heating furnaces, continuous casting machines, and induction furnaces, ensuring optimal equipment performance and minimal downtime.
- **Turnkey Project Solutions:** Comprehensive turnkey project solutions that cover everything from sourcing to delivery, including project planning, engineering, procurement, and construction.
- **Maintenance and On-Site Support:** Expert maintenance and on-site support services, including breakdown assistance, preventive maintenance, and technical consultations, to optimize operational efficiency.
- **Ferrous and Non-Ferrous Scrap:** High-quality ferrous and non-ferrous scrap for steel melting plants, sourced from reliable suppliers and carefully inspected to meet stringent quality standards.

Global Reach and Local Expertise

To better serve our customers, SourceX India has established a global presence with offices in India, Dubai (UAE), and Milan (Italy). This strategic network enables us to source the finest materials from around the world and offer customized solutions tailored to the specific needs of our clients. Our team of experienced professionals is dedicated to providing exceptional customer service and technical support. We work closely with our clients to understand their unique challenges and develop innovative solutions that deliver measurable results.

Our Commitment to Excellence

At SourceX India, we are committed to:

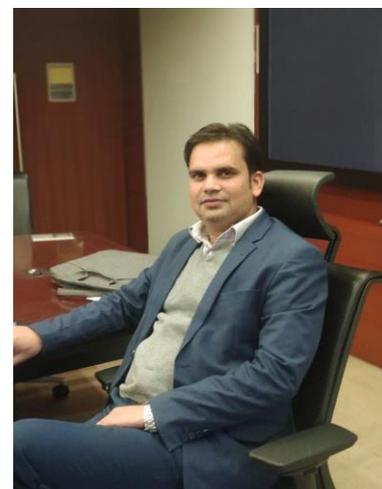

- **Quality:** Delivering high-quality products and services that meet or exceed industry standards.
- **Reliability:** Ensuring timely delivery and reliable performance of our products and solutions.
- **Customer Satisfaction:** Building long-term partnerships based on trust, transparency, and exceptional customer service.
- **Innovation:** Continuously exploring new technologies and solutions to drive operational excellence.

By combining our deep industry knowledge, global reach, and unwavering commitment to excellence, SourceX India is poised to be a leading provider of innovative solutions for the steel and industrial sectors.

Leadership Team: Our leadership team, blending in-house expertise with global advisory experience, ensures our business decisions align with both global trends and local needs.

Anand Mishra
Co-Founder- Managing Director

A seasoned Mechanical Engineer with over 17 years of experience in the steel sector, Anand Mishra has led numerous global projects, honing his expertise in sourcing and technical management. As co-founder of SourceX India, he oversees marketing, operations, and branding, ensuring excellence in customer satisfaction and driving the company's vision forward.

Nitin Bansal
Co-Founder- Director

With over 16 years of experience, Nitin Bansal is an expert in global procurement and supply chain management. A Mechanical Engineer with deep technical understanding as well as he plays a pivotal role in optimizing sourcing strategies and ensuring smooth operational workflows. In addition to his procurement expertise, Nitin manages the financial operations at SourceX India, balancing efficiency with strategic growth.

One-Stop Solution for the Steel Industry At SourceX India.

We offer comprehensive solutions for the steel industry, covering a vast range of products and services to meet every need. Our product lineup includes:

- Refractory Materials: Bulk ferro alloys (manganese, silico, chrome-based alloys), Fire Clay & High Alumina Bricks, castable, mortars, ramming masses, gunning materials, and PCPF shapes.
- Insulation Bricks: With matching castable and mortars.
- Basic Bricks: Magnesite, Magnesite Chrome, Chrome Magnesite, along with respective castable, mortars, ramming masses, and gunning materials.
- Specialized Bricks & Materials: Acid-resistant bricks & mortar, Silica (acidic) Ramming Mass, Ladle Covering Material, EBT Filling Compound, and Casting Powder.
- Mechanical & Electrical Equipment: Rolling Mill machinery, spares & consumables, re-heating furnaces, Induction Furnaces, Continuous Casting Machines, EOT Cranes & spares.
- Heavy Machinery Spares: Earthmover & movable crane spares & consumables.
- Ferrous and non Ferrous Scrap for Steel Melting Plants.

In addition to product supply and export, we offer a range of services to support your operations:

- Turnkey Project Solutions
- Maintenance and Repair
- On-Site Breakdown
- Solutions Design Consultation & Development

Whether you're seeking quality materials, machinery, or expert services, SourceX India is your trusted partner for all your steel industry needs.

Our Products

01.

**Rolling Mill Mechanical Machinery,
Spares & Consumables**

02.

Re-heating Furnace & Spares

03.

Induction Furnace

04.

**Continuous Casting Machines
& Spares**

05.

**Electricals / E.o.t. Cranes
& Spares**

06.

**Spares & Consumables For
Earthmovers & Movable Cranes**

01. Rolling Mill Mechanical Machinery, Spares & Consumables

At **SourceX India**, we recognize the vital importance of rolling mill machinery and its related spares and consumables in maintaining uninterrupted industrial performance. Our extensive product portfolio is tailored to the specific requirements of the rolling mill sector, ensuring optimized productivity, reduced operational disruptions, and extended equipment lifespan.

Rolling Mill Mechanical Machinery, Spares & Consumables

**Stands (C.i. Casting /
Steel Fabricated) All Sizes**

**Reduction Gear Boxes /
Gears**

Pinion Gear Boxes / Gears

Cardan Shafts

Universal Coupling

Universal Spindles

Gear Couplings

Rolls
(aramide / Chill Rolls / S.g. Iron / En-series)

Roller Bearings

Rolling Mill Mechanical Machinery, Spares & Consumables

Bearing Chocks

**Guide Boxes & Its Spares
Reels / Pin & Bushes**

**Lubricating Systems For
Pinion & Reduction**

Crop & Cobble Shear

Flying Shears

Rotatry Shears

Twist Pipes

Pinch Rolls (A.C. / D.C.)

Cold Shear

Rolling Mill Mechanical Machinery, Spares & Consumables

V-belts (Fenner / Hilton)

Conveyer Pulleys

Chain - Sprocket Pulleys

Blades For All Types Of Shearing Machines

Black & White (AP-3) Grease

Fiber Bearings & Keys

Mobil Oil (320 & 407) "ISI"

Welding Rods
(8mm / 10mm / 12mm / Hard Facing / S.S./C.I. / Machinable / Non-machinable)

Brazing Rods
(Copper / Silver)

Rolling Mill Mechanical Machinery, Spares & Consumables

Brazing Powder

Carbide Tools & Tips
(widia / I.t.i. / Miranda)

**D Spanners ,
Ring Spanners , Side Tools**

Water Softner & Spares

Pipe Fittings
(ball Valves / Butter Fly Valves , Re-flex
Valves / Gate Valves , multi Port Valves)

Water Pumps
(single Stage / Dual Stage / Multi Stage)

Quenching Box
(double / Four Line Ss Valves &
Accessories)

Twin Channels & Its Spares

**Rolls For Straightening
Machines**

02. Re-heating Furnace & Spares

At **SourceX India**, we understand the crucial role that re-heating furnaces play in steel manufacturing and metalworking. We are committed to delivering high-quality solutions that optimize the efficiency and reliability of your re-heating furnaces, ensuring smooth operations and enhanced performance.

Re-heating Furnace & Spares

Fire Clay

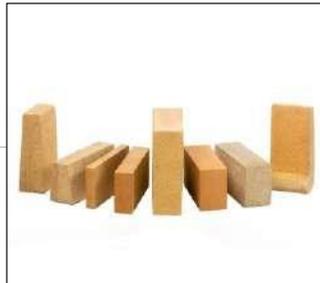

Fire Super - Crete

Castables 70 % & 90 %

Akko Set 50

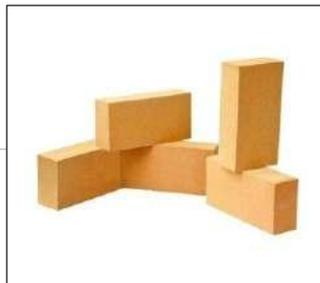

Fire Bricks
(Standard / End Taper / Side Taper)

Hanger Blocks

Shoulder Blocks

High Alumina Bricks

Floor Bricks
(50 % / Magnetite)

Re-heating Furnace & Spares

Air Blower

Oil Burners

Pusher
[Screw / Side Rods /
Reduction Gear Box / Bush]

Doors / Windows

Ejector And Its Accessories

Insulating Bricks

Oil Pumping Unit

Chimney

Burners Oil Based

03. Induction Furnace

Induction furnaces are essential in today's foundries and metalworking industries, utilizing electromagnetic induction to generate heat for efficient metal melting. These furnaces offer numerous advantages, including high energy efficiency, precise temperature control, and the ability to melt a diverse range of metals with minimal contamination, making them an ideal choice for modern industrial applications.

Induction Furnace

Quartz Ramming Mass
(For Silica Lining)

Ramming Mass
(Neutral Lining)DTF(Germany)

Boric Acid

S.S. Tie Rods for Crucibles

S.S. Nut, Bolt & Washer
(Spring Washers)

Brass Nut, Bolt & Washers

Spacer

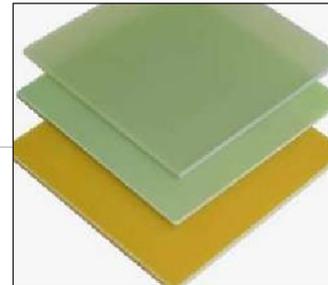

Sinthaniya Guktha

Fiber Glass Tape

Round MICA Sheet

FRP Sheet / Pipe

Hose Clamp

Silico Manganese

Ferro Silicon

04. Continuous Casting Machines & Spares

Continuous casting machines play a crucial role in modern steel production, facilitating the efficient and uninterrupted manufacturing of metal slabs, billets, and blooms. This process involves the solidification of molten metal into semi-finished forms, ready for further processing into final products. The machinery and spare parts used in continuous casting are meticulously designed to ensure smooth operations, deliver high-quality output, and minimize waste.

Continous Casting Machines & Spares

Radex

NFC

Tundish Vessel

Our Services

1. Turnkey Project Solutions

SourceX India provides comprehensive Turnkey Project Solutions, delivering all necessary products for specific projects through a single quotation. This service ensures a seamless and efficient process, allowing clients to receive timely, consolidated deliveries of high-quality mechanical machinery, spares, consumables, and more. Our dedicated team oversees every aspect, from the initial quotation to final delivery, ensuring that all project requirements are met with precision and excellence.

This streamlined approach enables clients to concentrate on their core operations while we efficiently manage supply chain logistics, resulting in a hassle-free experience.

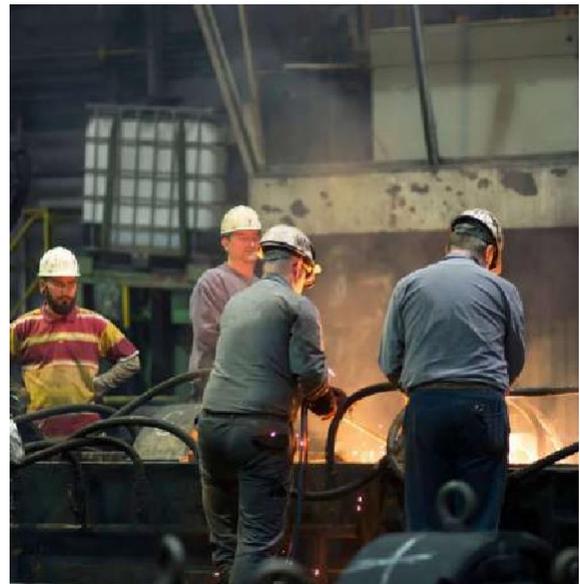

SourceX India caters to the diverse needs of various industries, including steel re-rolling mills of all sizes, TMT production, strip mills, E.R.W. pipe plants, induction furnaces, continuous casting machines, as well as cement, sugar, and paper mill machinery. Additionally, we supply essential consumables, which are integral to our operations.

2. Maintenance and Repair

SourceX India offers Sustained Support Services tailored to address the ongoing needs of our clients, ensuring timely product delivery and maintenance as per their requirements. Our comprehensive service package includes:

- Manpower Contracts
- Regular Delivery of Consumables and Machinery Parts
- Scheduled Maintenance Support at fixed intervals (e.g., every six months or annually)

We are committed to ensuring that your operations run smoothly with minimal downtime by providing expert maintenance and timely material supply. This approach not only enhances productivity but also extends the lifespan of your equipment. Trust SourceX India to be your reliable partner in maintaining the efficiency and performance of your industrial operations.

Our Services

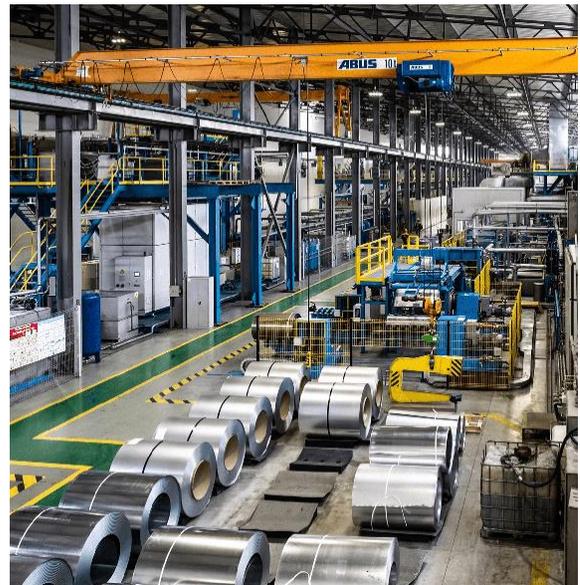

3. On-Site Solution of any Breakdown

At SourceX India, we recognize that unexpected breakdowns can lead to significant disruptions in your operations. Our On-Site Solution Service is specifically designed to provide immediate assistance during such incidents, minimizing downtime and quickly restoring functionality. Our team of skilled technicians is available 24/7 to diagnose and resolve issues on-site, ensuring your equipment is operational with minimal delay. Equipped with advanced diagnostic tools and a comprehensive inventory of spare parts, we efficiently address a wide range of problems. Trust SourceX India to deliver prompt, reliable, and expert solutions whenever and wherever you need them.

4. Designing Consultation and Development

SourceX India offers expert Designing Consultation and Development services to help you optimize operations and achieve your project objectives. Our team of experienced engineers and designers collaborates closely with you to understand your specific requirements, developing customized solutions that enhance efficiency, productivity, and innovation. We leverage the latest technologies and industry best practices to design systems and components that adhere to the highest standards of quality and performance. Whether you require assistance with conceptual design, detailed engineering, or the development of new products and processes, SourceX India provides comprehensive support from initial consultation to final implementation, ensuring that your projects are completed successfully and to your satisfaction.

Why SourceX India?

Comprehensive Product Range

With over a decade of experience in trading and supplying industrial products, SourceX India exemplifies quality and reliability in every product we deliver.

Comprehensive Product Range

From essential mill store supplies to specialized machinery and consumables, SourceX India addresses a broad spectrum of industrial needs, providing robust solutions that enhance productivity and efficiency.

Customization and Error Check

We deliver tailored solutions for specific client needs, supported by stringent error-checking to ensure flawless execution and performance.

Commitment to Quality

Our products are designed to meet the highest standards of durability and performance, supported by stringent quality control measures throughout the production process.

Customer-Centric Approach

At SourceX India, customer satisfaction is our top priority. We strive to understand and meet the unique needs of each client, fostering long-term partnerships based on trust and success.

Manpower Expertise

Our skilled professionals leverage extensive industry knowledge to provide tailored solutions that consistently exceed client expectations, driven by a commitment to excellence.

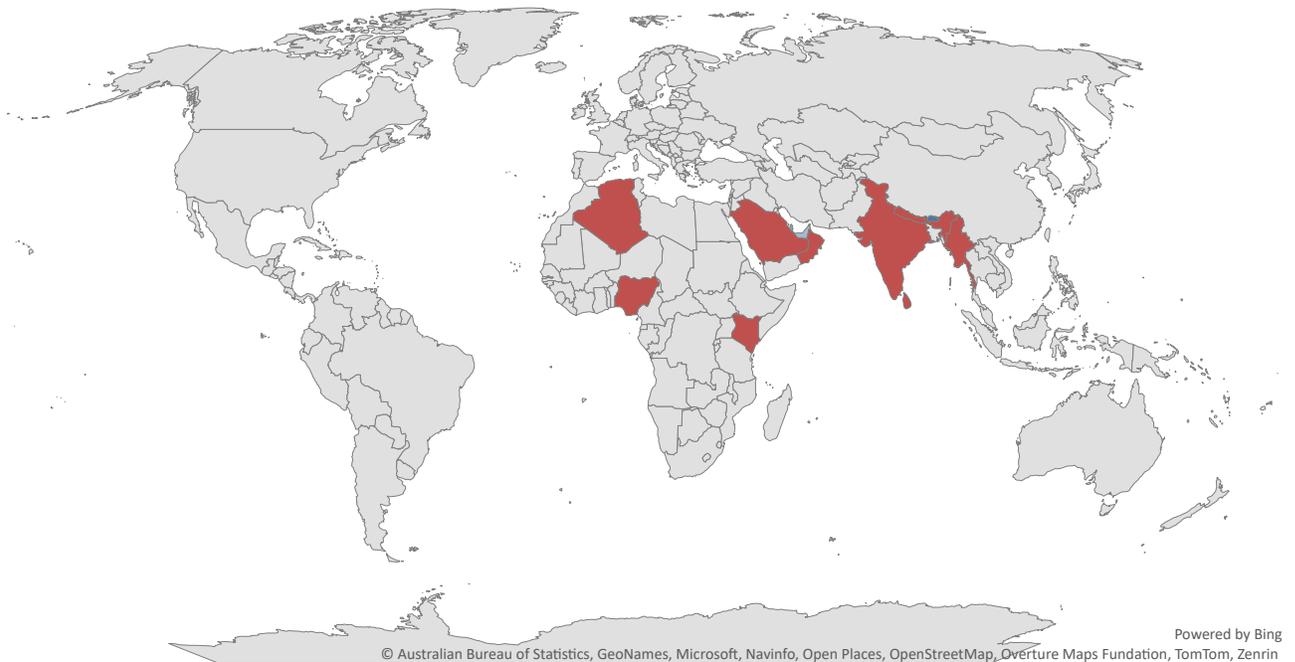

Delivery on Time

At SourceX India, we recognize the importance of deadlines. We prioritize efficient logistics and operational excellence to ensure timely product delivery, consistently meeting our clients' project timelines.
